Dear Sir,

According to the information provided for the acceptance of the FAA TC A53EU for the **ATR72-212A** aircraft, with Pratt & Whitney Canada Engines PW127F/M (FAA TC E20NE) and Propeller Hamilton Sundstrand 568F-1 (FAA TC P8 B0), which was previously validated with EASA TC No. A.084, and considering that **ATR–GIE Avions de Transport Régional** has submitted the additional requested documents, which were evaluated under Colombian Civil Aviation Regulations (RAC) and that the Colombian Civil Aviation Authority (UAEAC), has completed the FAA TC acceptance, this authority welcomes the aircraft **ATR72-212A, with the Engine and Propellers related in the references**, to operate in Colombia; however, it is important to note that we will only accept the aircraft configuration, certification basis, as well as the airworthiness and operations limitations as stated in the FAA Type Certificate and the supplied documentation.

ATR-GIE Avions de Transport Régional will keep updated the continued airworthiness documents required to guarantee the proper operation in accordance with the recommendations of the State of Design and Certification. Any change of the information mentioned above, must be reported and documented to the Colombian Civil Aviation Authority (UAEAC).

If you have any questions, please do not hesitate to contact us.

Sincerely,

Cr. (r) German Ramiro Garcia Acevedo
Air Safety Secretary
Civil Aviation Authority of Colombia (UAEAC)
