Dear Mrs. Patton,

According to your application for the acceptance of the FAA Type Certificate No. P15E for the **HARTZELL PROPELLER INC.** model **HC-B3T** Propeller, and considering that **HARTZELL PROPELLER INC.** has submitted the requested documents, which were evaluated under Colombian Civil Aviation Regulations (RAC) and that the Colombian Civil Aviation Authority (UAEAC), has completed the FAA Type Certificate acceptance by Homologation, this authority welcomes Hartzell propellers model **HC-B3T**, to operate in Colombia. However, it is important to note that we will only accept the propeller certification basis, as well as the airworthiness limitations as stated in the FAA Type Certificate and the supplied documentation.

HARTZELL PROPELLER INC. will keep updated the continued airworthiness documents required to guarantee the proper operation in accordance with the recommendations of the State of Design. Any change of the information mentioned above, must be reported and documented to the Colombian Civil Aviation Authority (UAEAC).

Concerning to the Post Type Validation Procedure, the Colombian Civil Aviation Authority (UAEAC) will accept the FAA findings for all post-Type Validation changes to the Type Design (including design change approvals, Airworthiness Limitations (AWL) approvals, Service Bulletin (SB) approvals, Continuing Airworthiness). In addition, the FAA as State of Design for the **HARTZELL PROPELLER INC.** model **HC-B3T** will have overall responsibilities for Continued Airworthiness.

If you have any questions, please do not hesitate to contact the undersigned.

Sincerely,

Eng. Jairo Enrique Salazar Manosalva
Flight Standards Director
Civil Aviation Authority of Colombia (UAEAC)
