INTRODUCTION

AIRPORT

Any airfield specially equipped and regularly used for passengers and/or cargo and which, in the opinion of the UAEAC, has sufficient aeronautical infrastructure facilities and services to be operated in civil aviation.

RAC 1 (Colombian Aeronautical Regulations)

SERVICES AT AIRPORTS

Aeronautical Services:

Are those provided directly or through designated third parties to facilitate ramp handling (baggage, cargo and passenger transportation). Also, cleaning, fuel supply, hangars, workshops, warehouses, parking garages and other parking position services.

Non aeronautical services:

Are those provided directly or through designated third parties at the airport passenger terminal and surrounding non aeronautical areas. These areas include immigration, customs, police, security, veterinary and phytosanitary controls.

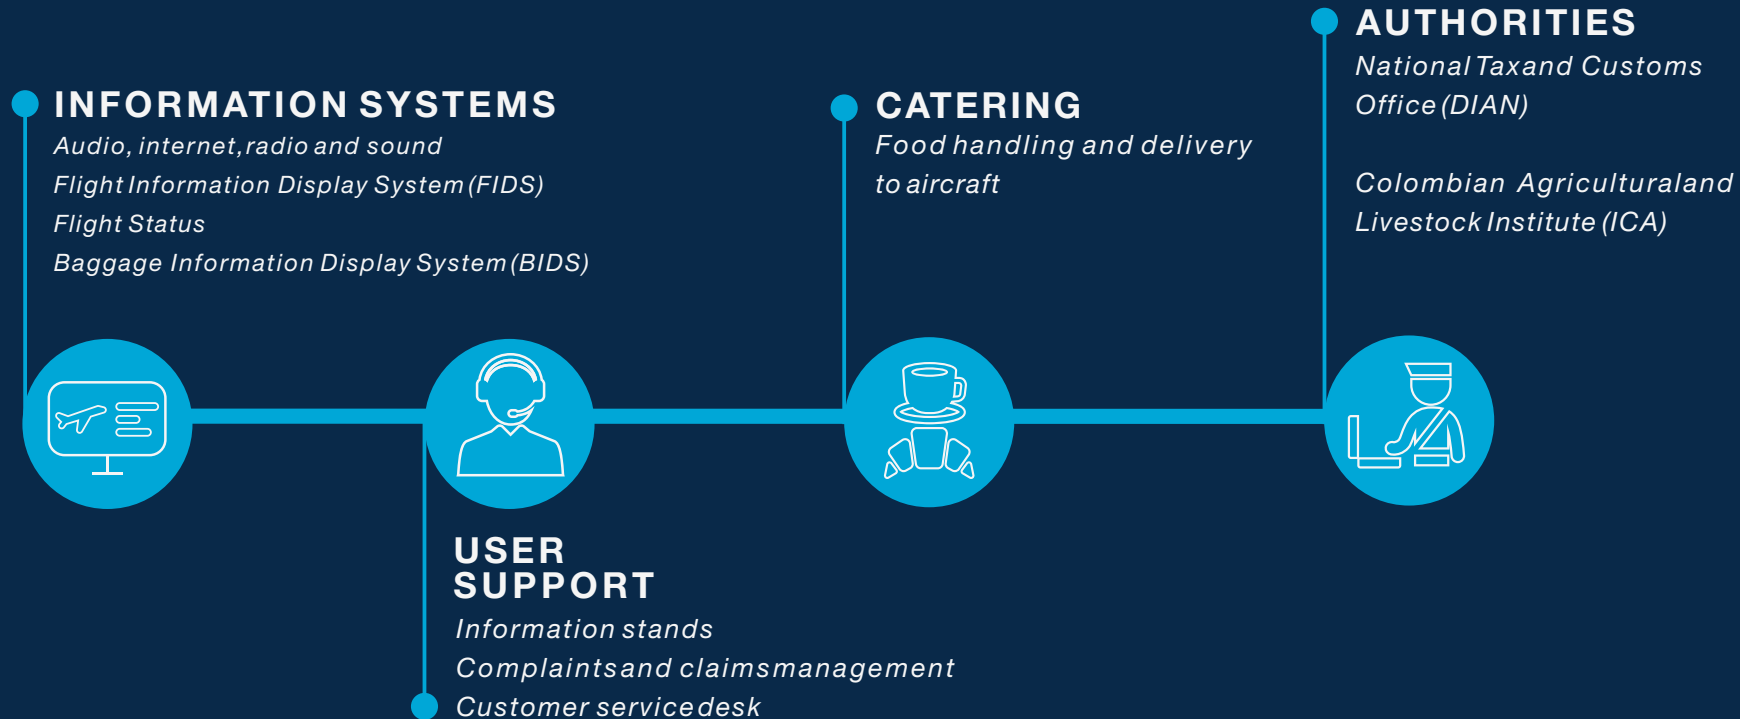

Airport services:

Are those provided by the Colombian Civil Aviation Authority directly or through designated third parties for takeoff and landing of aircraft and helicopters. Besides those services that facilitate the passage of passengers and control of their goods, mail and cargo. Finally, Aircraft Rescue and Fire Fighting services, airport security and health services.
