**Subject: Acceptance of Foreign Supplemental Type Certificate
No. SA02018SE-D, (issued by FAA).**

- References:
1. Garmin Num. GL22074_2. Dated July 5, 2022. Request for UAEAC Validation of Garmin GPS/XM Antennas for Part 23 AML STC SA02018SE-D
 2. FAA Num. 7K5-22-00099, Application for Approval of STC SA02018SE-D. Dated August 11, 2022. ADI # 2022088577
 3. Garmin International Email dated Nov 09, 2022 – Aerocivil Validation process of STC SA02018SE-D (RAC 21, § 21.515)
 4. Colombian Civil Aviation Regulations, RAC 21. § 21.515

Dear Mr. Frisk,

According to your application for the acceptance of **FAA Supplemental Type Certificate No. SA02018SE-D**, related to the:

Provisions installation of Garmin GPS/XM Antennas in accordance with FAA Approved Model List (AML) SA02018SE-D

Considering that Garmin has submitted the associated technical documentation, which was reviewed and evaluated under Colombian Civil Aviation Regulations (RAC 21, § 21.515) The Colombian Civil Aviation Authority (**AEROCIVIL**) accepts the foreign Supplemental Type Certificate **No. SA02018SE-D**, for major alteration application on Colombian registered aeronautical products, in accordance with airworthiness limitations and conditions stated in the FAA Supplemental Type Certificate.

Clave: GDIR-4-2-12-029
Versión: 03
Fecha: 25/11/2020
Página: 1 de 3

As substantiated by **GARMIN INTERNATIONAL** the following is the list of required documents that must accompany each installation on Colombian registered aeronautical products as required by RAC43 § 43.300(b):

5. *Master Drawing List (MDL) # 005-00638-01 Rev 4 Dated 03/08/12 or later approved FAA revision*
6. *Installation Manual # 190-01284-00 Rev D Dated 03/04/12 or later approved FAA revision*
7. *Instructions for Continued Airworthiness #005-00638-09 Rev 3 dated 03/16/12 or later approved FAA revision*
8. *A letter of authorization of use of the STC signed by the appropriate person in the STC holder organization identifying A/C tail number and S/N.*

The aeronautical product to be altered must be listed in the respective FAA Approved Model List (AML) of this STC. The STC **SA02018SE-D** will be entered in the national index of accepted STCs.

Note: Please be informed that the Approved Model List -AML, may include aircraft models whose TCs have not been validated in Colombia.

Please bear in mind that this acceptance is issued to the STC and its supporting technical data and does not constitute an approval for the product (or products part of the STC) to be imported, is the responsibility of the installer to comply with the requirements set forth in RAC 21.1200 for the product (or products) being imported.

In addition, please consider that your company is responsible to keep this STC information (The alterations' published documents) updated to guarantee safe operation and support the continued airworthiness of the altered aircraft registered in Colombia.

Any major change of the STC information must be reported and documented to the Colombian Civil Aviation Authority (**AEROCIVIL**).

The validity of this letter of acceptance expires when the Supplemental Type Certificate approval ceases to exist. If at any point in time, the **AEROCIVIL** finds that there is a reasonable doubt to indicate that the safety of the aeronautical product is compromised because of an unsafe condition developed in the altered aeronautical product, **AEROCIVIL** may cancel the letter of STC Acceptance.

Sincerely,
